

Looking for brilliant performance, innovative features and high-end technology? The Epson EB-Z8000WU gives you all that and more.

#### **Introducing the first-ever 3LCD WUXGA projector:**

Epson brings you the world's first dual lamp WUXGA Epson EB-Z8000WU and the new WXGA Epson EB-Z8050W. Both models feature innovative new lamps and 3LCD technology suitable for any large venue or event.

#### **Bringing together 3LCD and optical technology:**

Epson brings 20 years of technology to a unique range of high brightness projectors. All 3LCD projectors use a 3-chip, solid-state optical engine to deliver incredibly bright, true-to-life colour, creating an astonishing level of realism. The three colour images are combined using a prism to form a full-colour image consisting of millions of colours. With pure 3LCD plus the powerful 6000 lumens dual lamp system, you enjoy the best picture quality and projector performance.

#### **Colour Light Output, the new metric for projector brightness:**

Epson provides Colour Light Output specification data. Colour Light Output measures a projector's ability to deliver colour, providing users with a simple, accurate and easy way to evaluate projector colour performance.
